this book critically analyses the extensive forms of societal regulatory requirements using forms of accounting control particularly those that are exerted over public sector organisations and the strategies of controlling accounting that are used by these organisations to minimise the effects of these requirements

the world is currently experiencing the advent of new information technologies with dynamic changes which can be considered as one of the greatest business threats today accordingly international business and academia have claimed to be working towards developing innovations in accounting and finance that are useful for all stakeholders the recent accounting and finance scholarship has moved forward toward new innovations that advance professional practice this book introduces and discusses new innovations in accounting and finance including management accounting blockchain e business models data analytics artificial intelligence cryptocurrency bitcoin digital assets and associated risks it also sheds light on how and why accounting and finance innovations have changed over time this book will help practitioners and academics develop and introduce new accounting and finance tools and concepts it is also a useful resource for those working in the accounting and finance fields

this handbook explores how accounting accountability and governance are interconnected and demonstrates that they must operate effectively together in establishing good personal and organizational behaviour in entities of all types around the globe it will be crucial for academic researchers working within the fields of accounting economics corporate governance accountability management and business and be beneficial for accounting economics and management professionals seeking to

clarify and expand upon their knowledge for effective application

selecting from the wide range of research methodologies remains a dilemma for all scholars not least those looking to study the world of accounting both established and emerging research methods are frequently advocated creating a challengingly broad range of choices covering a selection of qualitative methodological issues research strategies and methods this comprehensive compilation provides an essential guide to the choice and execution of qualitative research approaches in this field the contributions are grouped into four sections worldview and paradigms methodologies and strategies data collection methods and analysis experiencing qualitative field research personal reflections edited by leading scholars with contributions from experts and rising stars this volume will be essential reading for anyone looking to undertake research in the qualitative accounting field

there is a growing acknowledgement of the role played by finance theory and experts in the 2008 global banking crash and their ongoing contributions to risks in the financial system some argue that finance theory is deeply ideological and the academy has been captured and corrupted by financial institutions and conservative journal editors and their unrealistic influence its language and terminology have been self referential enabling disciplinary closure but generating widening gaps with reality and lived experience in particular in spite of its deeply cultural and ethical nature finance education has been stripped of any wider discussion of ethics and culture and replaced by a particular neo liberal greed and materialistic ethic in an era of financialisation some have called finance a curse on modernity the devastation this has caused and continues to cause is making the world highly unequal risky and unsustainable serious and radical reforms are required in the teaching and research of finance this book charts out the possible solutions for such reform

accountancy provides a significant role and impact on the public and private sectors through its various disciplines and specialties trust in human and technological interactions is a primary objective of public accounting accountancy provides the strategic capability to access and interpret organizational performance therefore

because of its impactful role it is important to understand and project how accountancy will change as a profession as accountancy continuously evolves it mandates agility among stakeholders particularly those in education and the professions the past present and future of accountancy education and professions broadly covers the ways accountancy will require new roles and knowledge for its constituents in the emerging future the book explores how technological educational professional and societal changes will transform accountancy covering topics such as business demands professional competencies and student success this premier reference source is an excellent resource for financial reporters financial advisors auditors accountants administrators and educators of both k 12 and higher education students of higher education pre service teachers librarians researchers and academicians

in this revealing book junie tong reflects on the role of banking and finance in china the author adopts a critical perspective that views the societal as well as economic functioning of banking and finance finance and society in 21st century china considers how far the modern economy is disconnected from chinese culture and history and the problems this separation may cause she questions the common assumption that china has outgrown its reliance on its western counterparts the author believes that the country is still very much dependent on exports and foreign investments and any radical or rapid reduction in either would have serious adverse consequences for china s sustainable economic growth to provide a model for finance and society that integrates culture and economy tong draws on the seminal work of belgian economist banker and social commentator bernard lietaer who has focused on cultural forces and the future of money in the world generally using representative case studies for illustration tong applies lietaer s work in a specifically chinese context highlighting the need to root finance and enterprise in the rhythms and forces within chinese culture to avoid future chaos and achieve socio economic stability in a country now so critical to global well being

the rapidly evolving nature of emerging technologies and the transformative and disruptive tendencies offered by these are reshaping professional activities operations and functions as well as value creation
